

AltaLIS Releases ATS Query Tool Database

February 2012

AltaLIS is pleased to announce that the database behind the AltaLIS ATS Query Tool is now available for purchase.

The Query Tool database was built from the provincial Alberta Township System coordinate file version 4.1 (ATS v4.1). This includes ATS survey pin coordinates and calculated points for other quarter section corners taking into account road allowances and road widening as they are identified in ATS v4.1.

Section	Township	Range	Meridian
All	001	01	4

Select Projection

- 10TM
- UTM
- Geographic

[Create List](#)

[Export List](#)

NW	NA	N4	NE
NW		NE	
WN	CS	CS	E4
WN	CS	CS	E4
SW		SE	
SW	S4	S4	SE

This database includes 10TM, UTM and Lat Long coordinates for every quarter section in Alberta.
