

AltaLIS extends surveyor rebate deadline

August 1, 2002

In response to a request from the Alberta Land Surveyors Association, AltaLIS has extended the Surveyor Project submittal deadline by one full year. AltaLIS is pleased to announce that for data purchased under the surveyor license after July 01 2002, surveyors will have two years to submit proof of plan registration in order to receive Property mapping credit.

AltaLIS was formed for the purpose of making Alberta's base mapping more available, accessible, accurate and affordable. Through the Surveyor Project license, surveyors are able to access cadastral data, for the purpose of registering digital plans at Land Titles, virtually free of charge.

For more information and to download the license agreement, please visit the Data Licensing and Pricing page on this website, or call our order desk at (403) 716-3490.
