Municipal Subscription

"up-to-date, property maps for municipalities"

Municipal Map Subscriptions

Municipalities now have more alternatives for accessing current and affordable digital map data through AltaLIS's annual subscription package. Special subscription pricing and licensing is being offered exclusively to municipal end-users needing updated property boundary data.

Benefits

- Property map data is priced at a fraction of AltaLIS standard rates for your unlimited internal use
- All registered survey or descriptive plans are included in each Property dataset
- Property datasets are updated continuously through Alberta Registries' *digital plan submission* process
- Data is delivered to you every 6 months (optional monthly updates available for a minor processing fee)
- Hardcopy & View-only map redistribution is permitted in the normal course of a municipalities' business

Features

- AltaLIS’s *Municipal End-User Subscription License* gives maximum access to the most current data with the fewest restrictions
- The Property map dataset is updated continually to assure you receive the most recent boundary changes
- Multiple formats, projections & datums are available (dgn, dwg, dxf in NAD 83 UTM, 3TM or 10TM)

- The initial one-time subscription fee is waived for previous AltaLIS customer purchases (within 2 years)

Restrictions

- Must be a municipal government entity
- Minimum 5 year signup term
- Coverage is limited to one municipality
- Map distribution is limited to hardcopy or ‘View-Only’ media
- Property map dataset redistribution is permitted to licensed end user subscribers, consultants and 3rd parties.
